

All Points Email Address Deactivation

We are writing to inform you that we are decommissioning email services that will impact this account. We are preparing to discontinue hosting this email account on March 1, 2023. After this date, this email address will no longer be active for use.

Before March 1, 2023, to prevent an interruption in email service, we encourage you to:

- Create a new email account through a provider of your choice (ex: Google or Yahoo), if you don't already have another one
- Set up email forwarding from this account to your new email address to ensure no emails are missed. Instructions for this can be found on our website under the Webmail heading (<https://allpointsbroadband.com/webmail/>)
- Once the email accounts have been deactivated, the forwarding from the original address will no longer work.
- Update friends, family, services, and other accounts to replace this email address with your new address

We thank you for the opportunity to serve you and our representatives are available to answer any questions during our normal business hours, Monday-Friday 8 AM-6 PM at 888-217-7827.

Thank You,
The Team at All Points Broadband
